So here it is...my first hash mag. It's only taken me 18 months and one previous (broken) promise to write it. Because of this I had no idea where to get the template from, managed to find an old one from 2015 and had to alter all the committee members and reformat the whole page. I could have been finished by now.

Anyway, an excellent hash set by Wobbly Knob from Brisworthy Plantation. Lots of zig-zagging, not a complaint just an observation, plenty of opportunity for shortcutting. Not too hilly, not too flat and best of all plenty of mud! I've started not even bothering to dry my shoes after the hash now since they'll only be wet and muddy again within minutes. Foolishly Stumor, who despite his many years of hashing, was attempting to keep his feet dry.

Dogcatcher has been practicing for the 2020 Olympics and managed to perform a near perfect summersault right over a gorse bush. Heroically clinging to this horn which emerged from the ordeal completely unscathed, unlike his legs which did not fare quite so well. This children, is why we run with torches. Dogcatcher....your legs will thank you for taking note of this.

The on down had everyone very excited about the upcoming 'do' "Out of this world", so sadly stories of the actual hash are limited apart from Glanni being convinced he saw mice

nibbling at the flour and Chopper buying someone a pint. I'm not sure why I found this noteworthy.

It was my intention to fill some space here with stories from said 'do', however due to the presence of wine, cider and Jägermeister my memory of the evening is a little fuzzy. As I recall a fantastic time was had by all, the awesome committee have clearly spent a lot of time and effort organising it so well done to them, especially Biff who spent the evening ensuring everyone was enjoying themselves, hopefully she enjoyed herself as much as we did. Everyone looked fantastic, costumes were spectacular, though most spectacular was Racey's recently (clearly) enhanced cleavage!

I do recall being told amusing anecdotes by multiple people during the evening for inclusion in the hash mag however my typically over-confident 'tipsy' self assumed un-tipsy me would remember these and so didn't write them down anywhere. The only note I made was that Embarrister had the world's largest fanny flap, which naturally was described as "It's a national treasure" – Ginger Rogers, and "I've got to plunder that tomb" – Chopper. Apologies for the lack of other amusing anecdotes but as they say: a picture paints a thousand words.... photos are on Facebook and TVH3 website.

On on!
